### ARBONNE is the Premier Leader in Natural Skin Care

Arbonne was founded in the U.S. in 1980 by a Norwegian named Petter Morck. Decades before people understood the importance of safe cosmetics, and protecting the environment Petter and his team were formulating botanically based skin care that was completely different from anything on the market. Today we know that what we put on our skin affects our health. As science begins to reveal the importance of “safe” skin care people are actively seeking natural alternatives and Arbonne has the answer.

ARBONNE products are completely FREE of:

## There are a lot of misconceptions about Network Marketing

Have you ever referred a friend to a good movie or a restaurant? Did the producer of the movie or the owner of the restaurant pay you for the referral? Think how often you refer friends and family to products and services you enjoy. Can you imagine getting paid on every referral? That’s what network marketing is. Nearly all successful Arbonne consultants started out loving Arbonne products. They couldn’t help but share their results with others. Arbonne rewards their referral with a nice compensation check.
