Example 1:

When my kids were little, I was searching for a career that would allow me to make enough money to put my kids in private school, and still be able to stay home with them. At that time I was a Camp Director, I was an actress, I was teaching music at local nursery schools and was going to graduate school to get a business degree. Well my search ended in 1992, when I was introduced to Arbonne by way of a gift certificate at a Mother's Day Luncheon. I tried the products and almost over night, my adult acne cleared up. When I found out that there was an income opportunity attached to this amazing botanical skin care line, I made decision become an independent consultant with Arbonne, and it was one of the best decisions of my life! I'm thrilled to tell you that today, I really feel like I have it all. I've created a lucrative business working from home and the best part is that I get to empower others to create the same success that I have achieved!!

Example 2:

I always wanted to have my own business. I was working a lot of hours at my corporate job and I was a single mom with a small child. I was looking for a way to create a better schedule, create more time and more money. A friend gave me a sample pack of high end Swiss Skin Care products. I tried them and was completely blown away by the results, the purity and there was an income opportunity with the company. I feel like I have it all now - time, money freedom and the best anti-aging products on the market today. What is really exciting for me is that I now have a vehicle to help others who are looking for more like I was.
